I. EXECUTIVE SUMMARY

Background

BlueCross Blue Shield of Illinois (BCBS of IL) is a health insurance issuer that offered qualified health plans (QHPs) in the individual market Federally-facilitated Exchange (FFE) in Illinois during the 2015 benefit year. BCBS of IL submitted its final restated 2015 benefit year data in the October 2017 Enrollment and Payment Data Workbook (EPDW). The issuer received a total of \$414,989,749.02 in advance payments of the premium tax credit (APTC) from CMS and paid a total of \$29,309,014.72 in FFE user fees (UF) to CMS for its 2015 benefit year individual market plans.

This report is an assessment of BCBS of IL's compliance with the APTC and FFE user fee programs established in sections 1311 and 1401 of the Patient Protection and Affordable Care Act (Pub. L. 111–148) enacted on March 23, 2010 and further amended and revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111–152) enacted on March 30, 2010 (collectively referred to throughout as PPACA), and implementing regulations.

Audits to Determine Compliance with the Administration of APTC and FFE User Fee Programs

Under title 45 of the Code of Federal Regulations (CFR), sections §§ [156.480](#) and [156.705](#), the Department of Health and Human Services (HHS) may audit¹ issuers that offer a QHP in the individual market through an Exchange to assess the degree of compliance with the APTC and FFE user fee program requirements. HHS designates the Centers for Medicare & Medicaid Services (CMS) to conduct these audits and to achieve the following:

- Safeguard Federal funds;
- Instill confidence amongst regulated entities of data quality, soundness, and robustness;
- Evaluate health insurance issuer compliance with program rules and regulations; and
- Develop a successful and coordinated risk-based, multi-year audit program that maximizes resources.

This audit is part of CMS's program to validate the enrollment and payment data reported on the final 2015 EPDW, and to analyze controls and policies of selected issuers pursuant to the authority defined in the regulations.

The findings and observations are documented below. If CMS found an instance of issuer non-compliance with APTC and FFE user fee program requirements that requires correction to payment, then CMS classified it as a *finding*. If CMS found a deviation from APTC and FFE user fee program requirements that we are calling to the attention of management for purposes of

¹ To provide the flexibility needed when standing up a new oversight program and to ensure that issuers are able to provide CMS with their most accurate data, audit protocols allow for dialog between auditor and issuer to identify and correct errors in data submission that differ somewhat from some independence and reporting standards laid out under Generally Accepted Government Auditing Standards (GAGAS). These procedures were defined and executed consistent with the competence, integrity, and analytical discipline required for performance audits as defined by GAGAS.

improving compliance in future program years, but that does not require correction to payment, then CMS categorized it as an *observation*.

Results of Review

CMS identified three (3) findings and no observations for BCBS of IL. The net financial impact of the three (3) audit findings is a payment to CMS of \$156,678.09, consisting of \$6,688.92 in FFE user fees returned to BCBS of IL and \$163,367.01 in APTC owed to CMS. The findings include the following:

1. Differences in premium/FFE user fee and APTC amounts identified in the comparison of the issuer's data included in the EPDW to a UF/APTC Desk Audit File containing subscriber level data from BCBS of IL's systems;
2. Inclusion of full month enrollment and payment data for seventy-two (72) duplicate subscribers in the UF/APTC Desk Audit File; and
3. Inclusion of an extra month of enrollment for one (1) of the fifteen (15) selected subscribers in the UF/APTC Desk Audit File.

Please refer to section IV for details on the findings listed above, including the condition, cause, effect, corrective actions, and the issuer's responses.

II. BACKGROUND, OBJECTIVES, SCOPE, AND METHODOLOGY

A. Background

Sections 1401 and 1412 of the PPACA established the APTC program to support the provision of affordable health care coverage to individuals. Additionally, section 1311 of the PPACA allows the FFEs to charge participating issuers user fees to support FFE operations.

CMS has the responsibility to confirm successful implementation of, and adherence to, the PPACA provisions and implementing regulations governing the APTC and FFE user fee programs. As such, CMS established this audit program.

Interim Payment Process

Since automated payment systems were not yet developed during the first years of FFE implementation, CMS implemented an interim payment process to calculate and make monthly payments of APTC and advance Cost-sharing Reduction (CSR) amounts, and to collect FFE user fees. The interim payment process required issuers to self-report enrollment and payment data on a monthly basis, including any adjustments to previous months' requests, via manual submission of an EPDW, and to attest to the accuracy of the data.

For the 2015 benefit year, CMS used this interim payment process to calculate and make monthly payments based on QHP data submitted in the EPDW. While using this interim process, CMS designed and implemented a robust set of internal controls within a larger program integrity framework to ensure payment accuracy. CMS required submitters to send the following QHP plan information at the variant level via the password-protected template:

1. State
2. Tax Identification Number (TIN)
3. Health Insurance Oversight System (HIOS) ID
4. QHP ID
5. Total premium amount for all enrollments
6. Total APTC amount
7. Total advance CSR amount
8. Total FFE User Fee amount
9. Total effectuated enrollment groups
10. Total effectuated enrollment groups with APTC
11. Total effectuated enrollment groups with advance CSR
12. Total effectuated members
13. Total effectuated members with APTC
14. Total effectuated members with advance CSR

FFE issuers were required to calculate the QHP enrollment and payment amounts and submit that information on the EPDW template using their internal source data.

B. Regulations Governing APTC and FFE User Fee Programs

CMS established an audit protocol to assess health insurance issuers' compliance with the following regulations governing APTC and FFE user fee programs:

- 45 CFR § [156.50](#): Financial Support;
- 45 CFR § [156.460](#): Reduction of enrollee's share of premium to account for advance payments of the premium tax credit;
- 45 CFR § [156.480](#): Oversight of the administration of the cost-sharing reductions and advance payments of the premium tax credit programs;
- 45 CFR § [156.705](#): Maintenance of records for Federally-facilitated Exchanges.

Please refer to Appendix 2 for the specific requirements established under the authorities listed above.

C. Objectives

The objectives of this audit are to:

- (1) Evaluate the accuracy and integrity of issuer-generated EPDW data reported for the APTC and FFE user fee programs;
- (2) Identify potential CMS APTC payment and FFE user fee collection errors resulting from issuer data reporting errors; and
- (3) Test accuracy and integrity of issuer processes for reducing an enrollee's share of premium to account for APTCs.

D. Scope and Methodology

CMS selected BCBS of IL for an audit on issuer compliance with the aforementioned regulations. CMS evaluated BCBS of IL's activities related to the 2015 benefit year (January 1, 2015 through December 31, 2015) individual market data reported on the final EPDW submitted in October 2017 by the issuer to CMS to support APTC and FFE user fee collections.

CMS sent BCBS of IL an electronic letter on May 24, 2018 to notify them of the scope of this audit. CMS's audit contractor sent a follow-up letter to BCBS of IL on May 25, 2018 that identified data requirements required to conduct the audit. CMS's audit contractor reviewed the audit data file submitted by BCBS of IL and used CMS's audit procedures to assess compliance with APTC and FFE user fee program rules and regulations.

CMS's audit contractor applied CMS's audit protocol to identify the findings and observations listed in sections IV and V of this report. CMS's audit contractor performed the following procedures:

- Validations of the UF/APTC Desk Audit File² data submitted to CMS:
 - EPDW Validations: Review and comparison of the issuer's final submitted 2015

² The UF/APTC Desk Audit File is CMS's standard document for issuers to provide information in support of this audit.

EPDW to the UF/APTC Desk Audit File from the issuer's systems.

- Unreconciled Subscribers Review: Review and comparison of the subscribers reported on the UF/APTC Desk Audit File to the subscribers included in CMS's systems to determine if the subscribers existed and their coverage was effectuated in the issuer's system (i.e., the amount the subscriber is responsible to pay toward the first month's total premium amount has been paid in full by the subscriber).
- Duplicate Exchange-assigned Subscriber IDs Check: Review of the UF/APTC Desk Audit File containing subscriber level data from the issuer's systems to verify that duplicate Exchange-assigned subscriber IDs (i.e., Exchange-assigned subscriber IDs that were reported on the file twice in the same month with full month or incorrectly prorated payment data) were not reported on the file.
- Premium Less than APTC Validation: Review of the UF/APTC Desk Audit File to verify that the subscribers' premium amounts reported on the file were not less than the APTC amounts reported on the file.
- Coverage Days Validation: Review of the UF/APTC Desk Audit File to verify that enrollments of five (5) days or fewer reported on the file were effectuated and had active coverage in the issuer's systems.
- Validations on samples of issuer's systems data:
 - Forty-five (45) Subscribers Sample Review: Review and comparison of the coverage periods, premium and APTC amounts from the issuer's systems to the corresponding data included in CMS's systems for a selected sample of forty-five (45) subscribers.
 - Fifteen (15) Subscribers Sample Review: Analysis and review of data and documentation from the issuer's systems to verify effectuation and the appropriate application of premium and APTC amounts to policies for a selected sample of fifteen (15) subscribers.
- Policy and Procedure Review: Review of issuer APTC policies and procedures for completeness and clarity.

III. RESULTS OF REVIEW

CMS assessed issuer compliance with regulations using the following procedures: EPDW Validations, Unreconciled Subscribers Review, Duplicate Exchange-assigned Subscriber IDs Check, Premium Less than APTC Validation, Coverage Days Validation, Forty-five (45) Subscribers Sample Review, Fifteen (15) Subscribers Sample Review, and Policy and Procedure Review. Below are the results of this review.

No findings or observations resulted from the review of BCBS of IL's UF/APTC Desk Audit File to verify that enrollments of five (5) days or fewer reported on the file were effectuated and had active coverage in the issuer's systems.

Forty-five (45) Subscribers Sample Review

No findings or observations resulted from the review and comparison of the data from BCBS of IL's systems to the corresponding data included in CMS's systems to determine accuracy of the reported enrollment months and the application of premium and APTC for a selected sample of forty-five (45) subscribers.

Fifteen (15) Subscribers Sample Review

One (1) finding and no observations resulted from the review of the data and documentation from BCBS of IL's systems to verify effectuation and the appropriate application of premium and APTC amounts to policies for a selected sample of fifteen (15) subscribers. Please refer to Finding No. 3 included in section IV for details on the finding.

Policy and Procedure Review

No findings or observations resulted from the review of BCBS of IL's APTC policies and procedures.

IV. FINDINGS

A finding is an identification of an instance of issuer non-compliance with APTC and FFE user fee program requirements that requires correction to payment. CMS's audit procedures identified three (3) findings that resulted in a change to BCBS of IL's reported EPDW for individual market plans for the 2015 benefit year. In light of the three (3) findings, the adjusted 2015 benefit year EPDW APTC and FFE user fee amounts for individual market plans are shown in the following table.

Recalculated EPDW for the 2015 Benefit Year

	FFE User Fees	APTC
EPDW as Filed in October 2017	\$(29,309,014.72)	\$414,989,749.02
Finding No. 1 - EPDW Validations Adjustment	\$4,582.49	\$(117,665.89)
Finding No. 2 – Duplicate Exchange-assigned Subscriber IDs Check Adjustment	\$2,098.50	\$(45,562.12)
Finding No. 3 – Fifteen (15) Subscribers Sample Review Adjustment	\$7.93	\$(139.00)
EPDW As Recalculated	\$(29,302,325.80)	\$414,826,382.01
Total Financial Impact	\$6,688.92	\$(163,367.01)

Note: Positive values indicate funds owed to the issuer.

The net financial impact of the three (3) audit findings is a payment to CMS of \$156,678.09, consisting of \$6,688.92 in FFE user fees returned to BCBS of IL and \$163,367.01 in APTC owed to CMS.

For the three (3) audit findings, CMS documented the criteria, cause, effect, corrective actions, and BCBS of IL's responses as seen in the charts below.

<p>Finding No. 1 - EPDW Validations</p>	<p>Condition:</p>	<p>Premium and FFE User Fee Differences – For one or more months of 2015 benefit year enrollment in one hundred and eleven (111) QHPs, the net "Total Premium Amount by QHP ID for effectuated enrollments" included in BCBS of IL’s EPDW was greater than the total premium amount included in BCBS of IL’s UF/APTC Desk Audit File, resulting in an overstatement of \$130,928.19 in premiums and therefore an overpayment of \$4,582.49 in FFE user fees. For the one or more months of 2015 benefit year enrollment in one hundred and eleven (111) QHPs, the EPDW was overstated by four hundred and seventy-six (476) enrollment groups and seven hundred and twenty-six (726) members.</p> <p>APTC Differences – For one or more months of 2015 benefit year enrollment in one hundred and seventeen (117) QHPs, the net "Total APTC Amount by QHP ID for effectuated enrollments" included in BCBS of IL’s EPDW was greater than the total APTC amount included in BCBS of IL’s UF/APTC Desk Audit File, resulting in an overpayment of \$117,665.89 in APTC. For the one or more months of 2015 benefit year enrollment in one hundred and seventeen (117) QHPs, the EPDW was overstated by five hundred and twenty-eight (528) APTC enrollment groups and seven hundred and ninety-eight (798) APTC members.</p>
	<p>Criteria:</p>	<p>Per CMS guidance and EPDW submission requirements:</p> <p>The “Total premium amount by QHP ID for effectuated enrollments” submitted on the EPDW is the "total premium amount for the health coverage for all effectuated enrollments within that plan” and the Total User Fee Amount by QHP ID is "the total FFE user fee amount the issuer can expect to incur for participation in the Federally-facilitated Exchange."</p> <p>The “Total APTC amount by QHP ID for effectuated enrollments” submitted on the EPDW is the "total APTC toward the total premium amount for effectuated enrollments within a 16-digit QHP ID."</p>

		Additionally, the premium and APTC amounts reported in the EPDW and in the enrollment group enrollment records of the UF/APTC Desk Audit File must be prorated using the proration formulas set forth in the 2015 payment notice and outlined in 45 CFR § 155.240.
	Cause:	The issuer indicated the premium amounts reported on the final, restated 2015 benefit year EPDW were overstated by \$130,928.19, therefore resulting in an overstatement of \$4,582.49 in FFE user fees, and the APTC amounts reported on the final, restated 2015 benefit EPDW were overstated by \$117,665.89 as a result of “retroactive changes in the coverage start or end dates in our membership system after the final submission in 2015.”
	Effect:	The premium/FFE user fee and APTC differences resulted in a change to BCBS of IL’s final, restated 2015 benefit year EPDW data.
	Corrective Action Required:	The net financial impact of this finding is a payment to CMS of \$113,083.40, consisting of \$4,582.49 in FFE user fees returned to BCBS of IL and \$117,665.89 in APTC owed to CMS. BCBS of IL should confirm the financial impact and coordinate on resolution with CMS as indicated in section VI of this report.
	Management Response:	BCBSIL agrees with this finding.

Finding No. 2 - Duplicate Exchange-assigned Subscriber IDs Check	Condition:	BCBS of IL overstated the 2015 benefit year premium amounts for seventy-two (72) subscribers, and overstated the 2015 benefit year APTC amounts for sixty-three (63) of those subscribers, in the UF/APTC Desk Audit File by reporting enrollment and full month payment data for the subscribers more than once in the same month.
	Criteria:	Issuers cannot request full month payment from CMS for the same subscriber twice within a month. Additionally, per the HHS Notice of Benefit and Payment Parameters for 2015 and 45 CFR § 155.240, in a Federally-facilitated Exchange, the

		<p>premium for coverage lasting less than one month must equal the product of (i) The premium for one month of coverage divided by the number of days in the month; and (ii) The number of days for which coverage is being provided in the month.</p>
	<p>Cause:</p>	<p>The issuer indicated one of the following explanations for each of the seventy-two (72) subscribers:</p> <ul style="list-style-type: none"> • "Cvg eff [issuer provided date of X/X/15 for the subscriber] termed due to nonpayment which added 30 day grace period to the termination date." (Eighteen (18) subscribers) • "This member existed twice in the issuer's system under different member IDs due to a change in the demographic information received." (Fifty-three (53) subscribers) • "Multiple Issuer Subscriber IDs for a single Exchange Assigned ID. Multiple member associated to same Exchange Assigned Subscriber ID." (One (1) subscriber) <p>Based on the feedback that the duplicates were for the same individuals and the policies should have been terminated, CMS concluded that the 2015 benefit year premium and, if applicable, APTC amounts reported for the seventy-two (72) subscribers in the UF/APTC Desk Audit File were overstated. The issuer provided the correct termination dates for each duplicate subscriber to inform the confirmed duplicates and financial impact.</p>
	<p>Effect:</p>	<p>The inclusion of the seventy-two (72) duplicate subscribers resulted in a change to BCBS of IL's final, restated 2015 benefit year EPDW data.</p>
	<p>Corrective Action Required:</p>	<p>The net financial impact of this finding is a payment to CMS of \$43,463.62, consisting of \$2,098.50 in FFE user fees returned to BCBS of IL and \$45,562.12 in APTC owed to CMS. BCBS of IL should confirm the financial impact and coordinate on resolution with CMS as indicated in section VI of this report.</p>

	Management Response:	BCBSIL agrees with this finding.
--	-----------------------------	----------------------------------

Finding No. 3 – Fifteen (15) Subscribers Sample Review	Condition:	BCBS of IL overstated the 2015 benefit year premiums and APTC amounts for one (1) of the fifteen (15) selected subscribers in the UF/APTC Desk Audit File by reporting an extra month of enrollment due to a manual processing error.
	Criteria:	Per CMS guidance, the issuer must create a single Inbound UF/APTC Desk Audit File consisting of detailed enrollment group effectuated enrollment records (one per enrollment group, per month) with the corresponding payment data. Issuers are to submit records for any effectuated enrollments and terminated enrollments (those enrollments that were effectuated and had some period of active coverage).
	Cause:	<p>The issuer indicated that "Member's January coverage is an Issuer Passive Renewal so no binder payment required. Member then termed for nonpayment as of 2/28/2015." The issuer further indicated that "Member termination should be 1/31/2015."</p> <p>During the audit, we followed up with the issuer to determine whether the issue impacted other enrollments reported on the desk audit file. The issuer indicated that "The incorrect termination date was the result of a manual processing error. As such, HCSC has no indication that other enrollments reported were affected." The issuer further indicated "The way we were able to identify that this was user error was by looking in the back-end history to see who modified the records. Typically for Non-Pay termination reason the user ID is associated to a batch process that automatically ran in Vantage to term members for non-pay. For Subscriber 4 the user ID is associated to an actual employee # making the update. This is how we determined this was a manual processing error by a user."</p>

		Based on the feedback that the inclusion of the incorrect termination date was a manual processing error, CMS concluded that the 2015 benefit year premium and APTC amounts were overstated for the one (1) subscriber reported in the UF/APTC Desk Audit File.
	Effect:	The inclusion of the extra month of enrollment for the subscriber resulted in a change to BCBS of IL's final, restated 2015 benefit year EPDW data.
	Corrective Action Required:	The net financial impact of this finding is a payment to CMS of \$131.07, consisting of \$7.93 in FFE user fees returned to BCBS of IL and \$139.00 in APTC owed to CMS. BCBS of IL should confirm the financial impact and coordinate on resolution with CMS as indicated in section VI of this report.
	Management Response:	BCBSIL agrees with this finding.

V. OBSERVATIONS

An observation is a deviation from APTC and FFE user fee program requirements that we are calling to the attention of management for purposes of improving compliance in future program years but that does not require correction to payment. CMS's audit procedures identified no observations.

VI. MANAGEMENT RESPONSES

Please provide management's response to the three (3) findings identified in the draft audit report and complete the attached Appendix 1 - Issuer Management Response to Net Financial Adjustment (Appendix 1), within thirty (30) calendar days from the draft audit report date. Management's response should indicate agreement or disagreement.

Agreement

If management agrees with the three (3) findings, complete the "Management Response" field of the findings in the draft audit report, and initial "Agree" and sign the attached Appendix 1. Return the draft audit report including Appendix 1 within thirty (30) calendar days from the draft audit report date. Upon receipt of the signed Appendix 1, CMS will finalize and publish the report. CMS will process the final adjustment amount in the next available monthly payment cycle.

Disagreement

If management disagrees with any of the three (3) findings and corrective actions, complete the "Management Response" field of the findings in the draft audit report, and initial "Disagree" and sign the attached Appendix 1. Return the draft audit report including Appendix 1 and any supporting documentation that substantiates management's response within thirty (30) calendar days from the draft audit report date. This will be the final opportunity to provide information or supporting documentation to correct any inaccuracies in the report before it is finalized.

CMS will review the written explanations in the "Management Response" field of the findings and any supporting documentation to determine if the report can be amended in a mutually acceptable manner. If you and CMS are unable to come to a mutually acceptable result, your response to this report will be included in the final published audit report.

CMS will provide an updated audit report, including the stated final adjustment amount along with an updated Appendix 1, following receipt and review of management's response. Please return the updated audit report with management responses and signed Appendix 1 within fifteen (15) calendar days. Upon receipt of the signed Appendix 1, CMS will finalize and publish the report and process the final adjustment amount in the next available monthly payment cycle.
