

HPMS E-Mail

Date: September 10, 2024

Subject: Follow-Up on the CY 2025 Medicare Plan Finder (MPF) Plan Preview

CMS appreciates your participation in the CY 2025 MPF plan previews. This e-mail provides information on issues identified during the preview periods.

CMS will correct the display of the following items for the October 1, 2024 launch of MPF:

- \$0 cost sharing in the catastrophic phase in the “Costs by Drug Tier” table
- Part D benefit information for a segmented MA-PD plan
- Hearing exam (18a) and Prescription Hearing Aids (18b) cost-sharing for in-network and out-of-network

CMS will correct the following item in calendar year 2025:

- The note “Plan limits - There may be limits on how much the plan will provide” does not appear for Hearing (18), Preventive Dental (16B), or Comprehensive Dental (16C). Please note that the “Advanced Plan Approval Required” and “Physician Referral Required” notes are displaying accurately for these benefit categories.

Thank you for your continued participation in the MPF plan previews.
