

Monitor Test File Processing

Slide 1 of 27 - Monitor Test File Processing

The slide has a blue background. In the top left corner is the CMS logo (Centers for Medicare & Medicaid Services). In the top right corner is the COB&R logo (Coordination of Benefits and Recovery). A large teal circle is on the right side, with a black circle overlapping its top right edge. The main title is in white text: "MMSEA Section 111 Medicare Secondary Payer Mandatory Reporting Liability Insurance (Including Self-Insurance), No-Fault Insurance, and Workers' Compensation". Below this is the subtitle "Monitor Test File Processing" in white. At the bottom left, it says "Version 7.6, 10/07/2024" and a note: "Note: CMS reserves the right to modify this presentation. To ensure you have the most current version, verify that the version and date on this page match the version and date on the corresponding page of the PDF currently available on [https://www.cms.gov/medicare/coordination-benefits-recovery/mandatory-insurer-reporting](\"https://www.cms.gov/medicare/coordination-benefits-recovery/mandatory-insurer-reporting\")."

Slide notes

Welcome to the Section 111 Coordination of Benefits (COB) Secure Website Monitor Test File Processing course.

Slide 3 of 27 - Course Overview

Course Overview

- Testing Process
- Reporting Agent Testing
- Threshold and Severe File Submission Errors
- Viewing Test File Results on Section 111 COBSW

**Slide notes**

Upon completion of this course, you be able to explain the testing process, Reporting Agent testing, Threshold and Severe File Submission Errors, and viewing test results on the Section 111 COBSW.

Please refer to the Section 111 User Guides located under the Reference Materials menu option or on the CMS Section 111 website for requirements regarding testing Section 111 files.

Slide 4 of 27 - PAID Act

PAID Act

The Medicare Secondary Payer (MSP) policy is designed to ensure that the Medicare Program does not pay for healthcare expenses for which another entity is legally responsible. To aid settling parties in determining this information, Congress has enacted the Provide Accurate Information Directly Act, also known as the PAID Act, requiring that CMS provide Non-Group Health Plans with a Medicare beneficiary's Part C and Part D enrollment information for the past 3 years.

This information will be provided both online and offline in the NGHP Query Response File. Additionally, CMS has requested that this solution also include the most recent Part A and Part B Entitlement dates.

**Slide notes**

The Medicare Secondary Payer (MSP) policy is designed to ensure that the Medicare Program does not pay for healthcare expenses for which another entity is legally responsible. To aid settling parties in determining this information, Congress has enacted the Provide Accurate Information Directly Act also known as the PAID Act requiring that CMS provide Non-Group Health Plans with a Medicare beneficiary's Part C and Part D enrollment information for the past three years.

This information will be provided both online and offline in the NGHP Query Response File. Additionally, CMS has requested that this solution also include the most recent Part A and Part B Entitlement dates.

Note: To support the PAID Act, the Query Response File will be updated to include Contract Number, Contract Name, Plan Number, Coordination of Benefits (COB) Address, and Entitlement Dates for the last three years (up to 12 instances) of Part C and Part D coverage. The updates will also include the most recent Part A and Part B entitlement dates.

Slide 5 of 27 - Testing Process

Testing Process

- Account Setup must be completed and signed profile report returned before testing can begin
- Authorized Representative and Account Manager notified by Email of testing status

Slide notes

A Responsible Reporting Entity (RRE) must complete the Account Setup on the Section 111 COBSW and return the signed profile report to the Benefits Coordination and Recovery Center (BCRC) before testing can begin. An email is sent to the Authorized Representative and Account Manager to notify them that the RRE ID is in a testing status.

Slide 6 of 27 - Testing Process

Testing Process

- Test Files
 - Limited to 100 records each for GHP RREs
 - Limited to no more than 200 Detail and Auxiliary Records for NGHP RREs
 - Must be submitted using same file transmission method as was chosen for production files
- RRE ID Remains in testing status until testing satisfactorily completed

Slide notes

Test files are limited to 100 records each and can only be submitted after the RRE ID status has been changed to Testing for Group Health Plan (GHP) RREs.

Test files must be limited to no more than 200 Detail and Auxiliary records (excluding the Header and Trailer) for Non-Group Health Plan (NGHP) RREs.

RREs must submit test files using the same file transmission method as was chosen for submitting production files.

The RRE ID will remain in a testing status until all testing requirements have been satisfactorily completed.

Please review the testing requirements in the Section 111 User Guides.

Slide 7 of 27 - Testing Process

Testing Process

- Once testing is completed, RRE ID transitions from testing to production status
- An email is sent to the Authorized Representative and Account Manager
- Test files can be submitted after RRE ID is in production status

Slide notes

Once testing has been completed, the RRE ID will be transitioned from a testing to a production status and the RRE can begin submitting production files.

An email is sent to the Authorized Representative and Account Manager, notifying them of the status change.

Test files can still be submitted after the RRE ID status has been changed to Production at the discretion of the RRE.

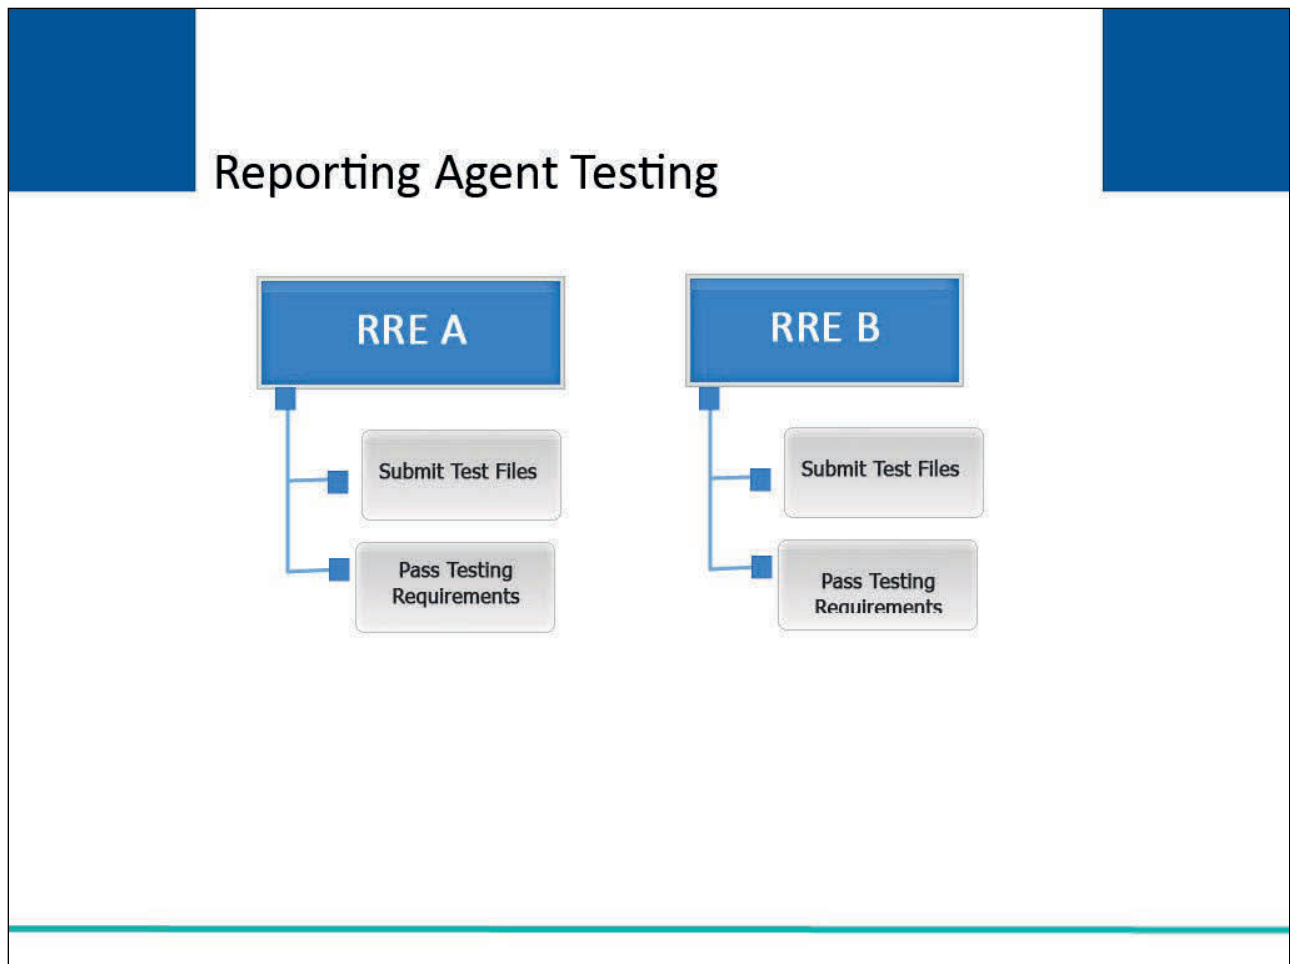

Slide 8 of 27 - Reporting Agent Testing

Reporting Agent Testing

- Reporting agency will submit data for RRE, may test on behalf of RRE
- Individuals from RREs reporting agent company may act as RRE ID Account Manager

Slide notes

A reporting agent is an entity that will be submitting data for and may perform testing on behalf of RREs. At the RRE's discretion, individuals from an RRE's reporting agent company may play the role of Account Manager for the RRE ID, but more typically is invited by the RRE's Account Manager to register as Account Designees.

Slide 9 of 27 - Reporting Agent Testing**Slide notes**

Since testing and production statuses are tracked in the system by RRE ID, when an agent submits files on behalf of an RRE, the agent must submit test files and pass the testing requirements for each RRE ID for which he/she is providing this service.

In other words, even if an agent passes the testing process for one RRE ID, it is still required to submit test files for each subsequent RRE ID that he/she represents.

Slide 10 of 27 - File Status

RRE Listing July 29, 2024 at 1:46:48 PM

This page lists all the Responsible Reporting Identification Numbers (RRE IDs) with which you are associated. You can select an individual RRE from the list to see Actions available for the selected RRE ID.

The list may be sorted by selecting the title of the column you wish to sort. Selecting the same column again will reverse the sort order for the column. Clear

The list may be filtered by entering values in the columns you wish to filter. To remove a filter, simply remove the value from the filter row, or select the **Clear** button. Selecting the **Clear** button will remove all filters.

RRE Listing Export

If there are errors, the file must be corrected and resubmitted as soon as possible

For questions, contact an EDI Representative

145690	VDSA	Production	01	Expanded	Not Due	AM	Tim Baldwin	(800) 879-4590

Slide notes

File status is shown on the File Listing page under the associated RRE ID.

As files are received by the application, file information is saved and stored on a database and a status code is used to track the file as it processes through the system.

If there are errors in the file, it will have to be corrected and resubmitted as soon as possible.

RREs with questions about file status should contact their assigned Electronic Data Interchange (EDI) Representative listed here on the RRE Listing page.

Slide 11 of 27 - Thresholds and File Submission

Thresholds and Severe File Submission Errors

File may be rejected/suspended from processing due to severe errors

- Missing or improperly formatted Header or Trailer Records
- Record counts that do not match those actually submitted
- File Header Records does not contain a valid RRE ID

Slide notes

Submitted files may be rejected or suspended from processing due to severe errors.

For example, missing or improperly formatted Header or Trailer Records, record counts that do not match those actually submitted, or file Header Record does not contain a valid RRE ID.

Slide 12 of 27 - Severe File Submission Errors

Severe File Submission Errors

Subject: Section 111 Reporting: RRE ID# [RPTR_ID] [FILE_TYPE_NAME] Severe Error Notification
PLEASE DO NOT REPLY TO THIS EMAIL
RRE ID:
RRE Name:
Authorized Representative:
Account Manager:
A _____ file received on _____ cannot be processed due to the following severe error:
[ERROR_MESSAGE]
This file is not acceptable and cannot be processed. Please submit a corrected file or contact your EDI Representative immediately for further instructions. If the account information included in this email is not correct, please contact your EDI Representative.

Slide notes

A file that receives a Severe Error, such as a missing Header or Trailer Record, will be suspended from further processing until the suspension is overridden by your EDI Representative.

An email will be sent to the Account Manager for the RRE ID regarding the Severe Error found. A sample of this email is shown on the screen.

Slide 13 of 27 -Severe File Submission Errors

Severe File Submission Errors

- Contact your EDI Representative
- The EDI Representative will delete the file and provide instructions
- File must be corrected and resubmitted

Slide notes

You must contact your EDI Representative to discuss the situation.

The EDI Representative will then delete the file and provide you with instructions as to when to send a corrected file.

If the rejected file is a required, quarterly submission of your MSP Input File, for GHPs, or Claim Input File, for NGHPs, then it must be corrected and resubmitted as soon as possible.

Slide 14 of 27- Thresholds and File Submission

Thresholds and Severe File Submission Errors

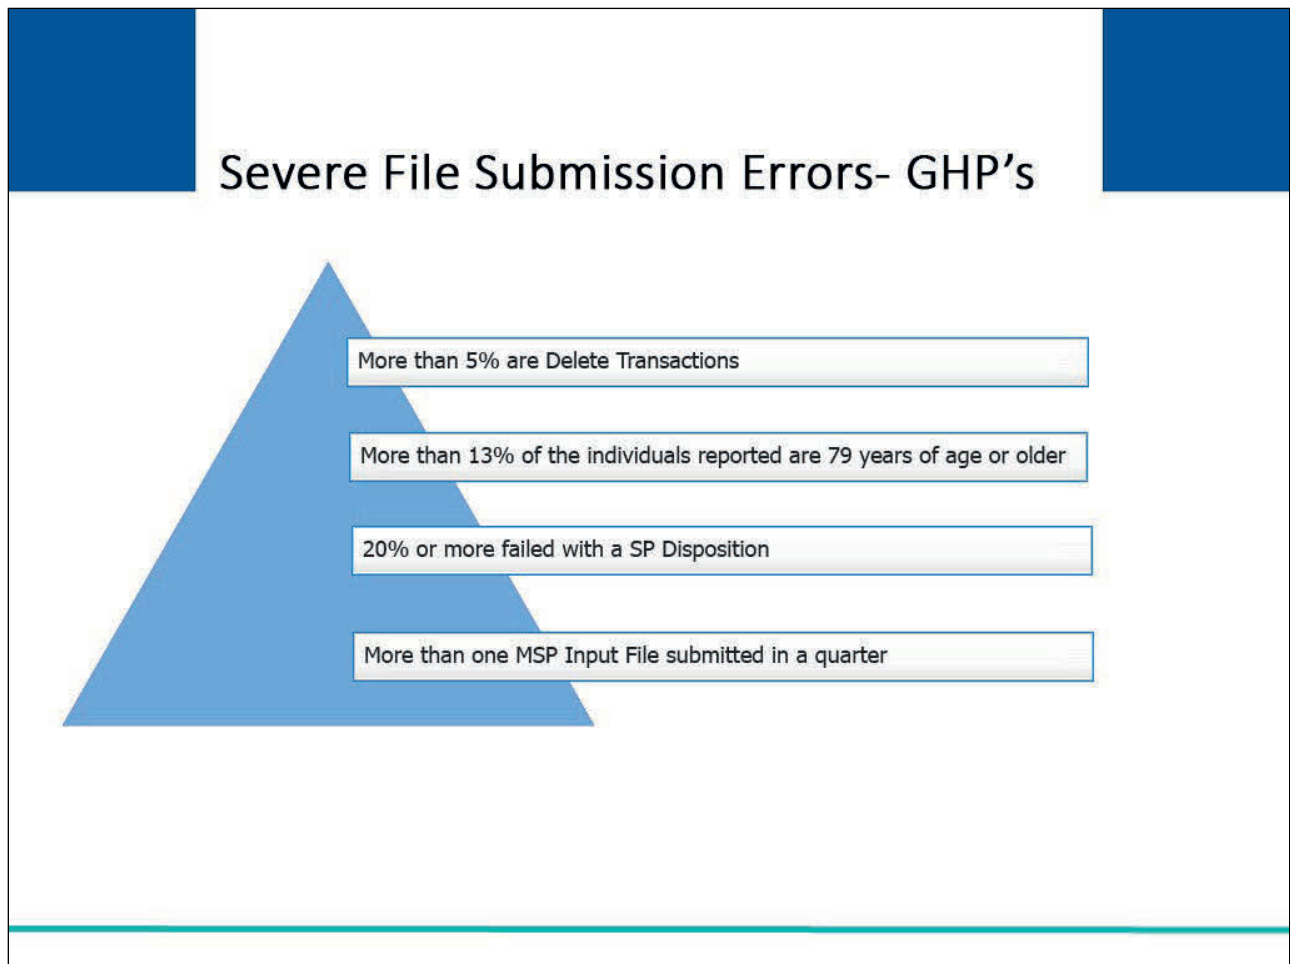

- Suspend files from processing
- Applied to
 - MSP Input File (GHP)
 - Non-MspP Input File (GHP)
 - Claim Input File (NGHP)
- Catch files suspected to be erroneous before
- Medicare's databases are updated

Slide notes

The BCRC has certain threshold checks in place that will suspend files from further processing until the suspension is overridden by your EDI Representative.

The threshold checks are applied to the Medicare Secondary Payer (MSP) and Non-MSP Input Files, for GHPs, and Claim Input Files, for NGHPs.

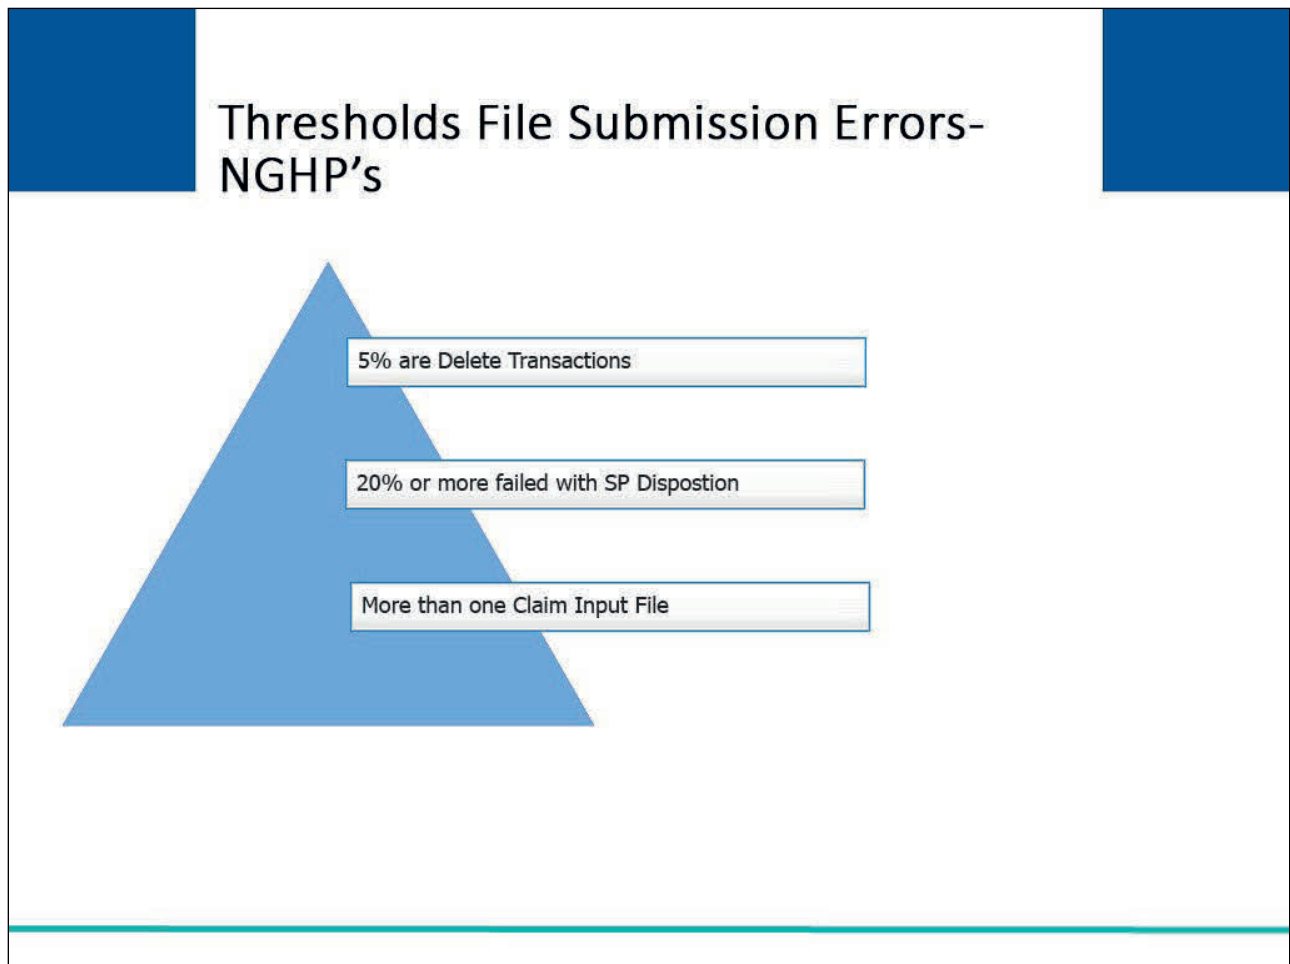

The threshold restrictions are in place to catch files that are suspected to be erroneous before the BCRC completes processing and updates Medicare's databases.

Slide 15 of 27 - Severe File Submission Errors**Slide notes**

Your MSP or Non-MSP Input File will be in error if it exceeds the following thresholds:

- more than 5% of the total submitted records are Delete Transactions,
- more than 13% of the individuals reported are 79 years of age or older,
- 20% or more of the total submitted records failed with a Disposition Code of SP due to errors, or
- that you submitted more than one MSP Input File during your defined quarter.

Please refer to the Section 111 GHP User Guide for more information on these edits.

Slide 16 - of 27 - Thresholds File Submission Errors-NGHP's**Slide notes**

Your Claim Input File will be in error if it exceeds the following thresholds:

- 5% or more of the total submitted records are Delete Transactions,
- 20% or more of the total submitted records failed with a Disposition Code of SP due to errors,
- or you submitted more than one Claim Input File during your defined quarter.
- Please refer to the Section 111 NGHP User Guide for more information on these edits.

Slide 17 of 27 - Thresholds File Submission Errors

Thresholds File Submission Errors

- Systems generates email to Account Manager
- Account Manager/Account Designee must contact the EDI Representative to discuss and resolve error
- File may be
 - Released for processing
 - Deleted by the EDI Representative
 - Corrected
 - Resubmitted

Slide notes

The system generates an email to inform the Account Manager that the file has been suspended from processing and lists the threshold error found.

An Account Manager or Account Designee must contact the EDI Representative assigned to the RRE ID to discuss and resolve the file threshold error.

The file may be released for processing or, if sent in error, deleted by the EDI Representative in which case a corrected file must be submitted as instructed.

If you uploaded the wrong input file, please contact your EDI Representative immediately.

Slide 18 of 27 - View Test Results

View Test Results

Login to Section 111 COBSW at:
<https://www.imp.cob.cms.hhs.gov/mra/>

**Slide notes**

To monitor test file processing, Section 111 COBSW users associated with the RRE's account will logon to the Section 111 application on the [Section 111 COBSW](#).

Note: All users associated with the RRE ID can monitor the status of the testing process regardless of which file transmission method they are using.

Slide 19 of 27 - RRE Listing Page

RRE Listing

July 29, 2024 at 1:46:48 PM

Slide notes

After a successful login, the RRE Listing Page will appear. It lists all of the RRE IDs to which you are associated. Select the RRE ID link from the list to see the Actions available for the selected RRE ID.

Slide 20 of 27 - RRE Information Detail Page

The screenshot shows the 'RRE Information Detail' page on the COB&R website. The header includes the COB&R logo, 'Section 111 Mandatory Reporting', and user information 'Mike Brown ()'. Navigation links include 'About', 'CMS Links', 'How To', 'Reference Materials', and 'Contact Us'. A 'Show Help Page' button is also present. The main content area is titled 'RRE Information Detail' and includes instructions on recertification. Below the instructions are two panels: 'Profile Report Information' and 'EDI Representative'.

July 29, 2024 at 1:47:03 PM

RRE Information Detail

Profile reports must be recertified annually. If the Recertification Due Date has been reached and you have not recertified, verify the RRE information displayed is accurate and click the **Recertify** button at the bottom of this page to recertify.

If the Profile Report contains any inaccuracies or outdated information, click the Edit button to make changes and then click the Recertify button to recertify your account if your recertification is due. Any updates not allowed on the Section 111 COBSW can be made by contacting your EDI Representative.
