01	<p>Item A1900 (admission date) is not referenced in the date consistency checks contained in Edit -3851 and there is therefore no rule that governs the minimum (earliest) value allowed for A1900.</p> <p>Edits -3851a currently says the following:</p> <p style="padding-left: 40px;">GROUP A RULES (Edit -3851a) Group A items are listed below. Each active item in this list that contains a valid date (not blank or dashes) must be in the specified order:</p> <p style="padding-left: 40px;">A0900 (birthdate) &lt;= A1600 (entry date) &lt;= A2300 (assessment reference date) = A2000 (discharge date) &lt;= Z0500B (date RN signed assessment as complete) &lt;= V0200B2 (CAT assessment process signature date) &lt;= V0200C2 (CAT care planning signature date) &lt;= X1100E (correction: attestation date) &lt;= current date</p> <p>This edit needs to be revised to say that the admission date in A1900 cannot be earlier than the birth date. Note that Edits -3860 and -3861 contain additional rules regarding the relationship between A1900 and A1600 (entry date). These edits do not need to be revised.</p>	<p>Edit -3851a will be revised as follows:</p> <p style="padding-left: 40px;">GROUP A RULES (Edit -3851a) Group A items are listed below. Each active item in this list that contains a valid date (not blank or dashes) must be in the specified order:</p> <p style="padding-left: 40px;">A0900 (birthdate) &lt;= A1900 (admission date) &lt;= A1600 (entry date) &lt;= A2300 (assessment reference date) = A2000 (discharge date) &lt;= Z0500B (date RN signed assessment as complete) &lt;= V0200B2 (CAT assessment process signature date) &lt;= V0200C2 (CAT care planning signature date) &lt;= X1100E (correction: attestation date) &lt;= current date</p>	<p>This change will be made in the next version of the data specs.</p>

03	Edits -3855 and -3856 were introduced in V1.14.0 of the data specifications. However, these edits need to be removed because they sometimes trigger fatal errors on records containing valid data.	Edits -3855 and -3856 will be removed from the next version of the data specs. They will be removed from ASAP in November 2014.	This change will be made in the next version of the data specs.
