DATE: December 28, 2016

TO: All Medicare Advantage Organizations, PACE Organizations, Medicare-Medicaid Plans, Section 1833 Cost Contractors and Section 1876 Cost Contractors, Demonstrations, and PDPs

FROM: Cheri Rice, Director  
Medicare Plan Payment Group

SUBJECT: Changes to Payment Year (PY) 2017 Initial Model Output Report (MOR)

This memo is to notify Medicare Advantage Organizations, PACE Organizations, Medicare-Medicaid Plans, Section 1833 Cost Contractors and Section 1876 Cost Contractors, Demonstrations, and PDPs of the changes to the PY2017 Initial MOR. As a result of recent changes made to Risk Adjustment payment models, CMS has updated the layouts for the MOR. Specific changes apply to the creation of a new Part C MOR Record Type “D” and the Part D MOR Record Type 2.

The new Part C MOR Record Type “D” and Part D MOR Record Type 2 Layouts have been attached for further guidance.

Similar changes will be made to the MOR for the 2016 Final payment. This payment will use risk scores that are a blend of risk scores calculated using RAPS-based diagnoses and risk scores calculated using encounter data-based diagnoses, and the MOR will be revised to allow separate reporting of HCCs used in the RAPS-based scores and the encounter data-based scores. Further guidance on these changes will be provided in another communication.

Questions related to this guidance should be sent to [riskadjustment@cms.hhs.gov](mailto:riskadjustment@cms.hhs.gov). Please use ‘HPMS Memo- Changes to Payment Year (PY) 2017 Initial Model Output Report (MOR)’ as the subject in all communications regarding this guidance.
