*Echolink and IRLP are VOIP methods to reach the repeater usable by hams at the station in NWS ALY office or remotely if needed.

NOTE A: When WX2ALY at NWS Albany is activated for these counties, District frequencies may be used to cover wide areas more efficiently. Contact should be made direct or by relay from county nets. First group is ENY Northern District, second group is NNY Southern District.

HF Net Frequencies

NYS RACES 3993.5 (LSB)
 NYSPTEN (6 PM) 3925.0 (LSB)

Please note that a listing here does not mean that permission has been granted for the use of the repeater in SKYWARN operations. Also, any additions, deletions or PL codes will be gratefully accepted by the SKYWARN Program Manager or his assistants.

ADDITIONAL NOTES: There is a more complete listing of repeaters and their PL on the SKYWARN station table. The VHF/UHF Radio is programmed with the frequencies listed above.
