Severe thunderstorms across the central and western Texas panhandle produced large and damaging hail...damaging winds...and several small tornadoes during the afternoon and into the evening hours. Large hail damaged roofs and broke windows and skylights in the Amarillo area and damaged or destroyed crops in the southwest Texas panhandle. High winds blew down trees and damaged signs and trailers in the southern Texas panhandle. The tornadoes caused damage to crops and uprooted trees across the southern Texas panhandle. No injuries were reported from the severe weather.
