Several trees were blown down in the Detroit community.

communities.

A cold front became stationary across Central Alabama, causing a several day period of isolated to scattered severe thunderstorms.

Strong to severe thunderstorms trained along a pre-existing boundary produced by a decayed MCS stretching across eastern Lauderdale and western Limestone counties during the early morning hours. Damaging winds knocked down a few trees northwest and southeast of Athens. These training storms produced between 3 and 5 inches of rainfall over eastern portions of Lauderdale county. Flash flooding occurred as a result, closing several county roads, mainly in the Lexington, Anderson, and Rogersville

Location Date/Time Deaths & Property & Event Type and Details Injuries Crop Dmg

Clear skies and diabatic heating during the late morning and afternoon hours over northern Alabama helped to strengthen a boundary stretching across central Alabama. Along this boundary, severe thunderstorms producing multiple bow echoes with damaging winds between 60 and 70 mph developed quickly during the late afternoon and evening hours. As this boundary pushed north ahead of an approaching cold front across northern Alabama, many locations east of of interstate 65 were impacted by these damaging winds. The counties hardest hit by these storms were: Cullman, Morgan, and Madison, and Jackson counties.

#### ALABAMA, Southeast

COFFEE COUNTY --- 2.3 NNW BROOKLYN [31.34, -86.19], 0.6 E KINSTON [31.21, -86.16]

Thunderstorm winds downed numerous trees and power lines, caused sporadic power outages, and damaged several structures. A barn was damaged on State Highway 134, a few trees were across power lines on County Road 474, a bank building sustained roof damage in Kinston, and several reports of barn and roof damage on State Highway 189 between Perry Store community and Kinston.

A pre-dawn thunderstorm on the 5th produced scattered wind damage across Coffee County.

GENEVA COUNTY --- 3.0 E GENEVA [31.03, -85.82]

Trees were down just south of State Highway 27 east of Geneva.

An afternoon thunderstorm on the 5th downed trees near Geneva.

DALE COUNTY --- 1.6 S EWELL [31.40, -85.57]

A McCall area woman was injured and trapped in her residence when strong winds sent a large oak tree crashing through her home at 141 Brantley Lane. The McCall Volunteer Fire Department was dispatched to the residence of Wanda Straiton at 618 PM CDT. While enroute to the scene, the fire department had to clear several trees blocking Jernigan Road, restricting access to Brantley Lane. Mrs. Straiton was treated for her injuries and released at a local area hospital that evening.								
A briefly severe storm moved across the rural areas of Escambia county downing several trees just south of County Road 18 a few niles west of Brewton.
