Date: 2025.03.20 14:36:47 -04'00'

SUBJECT: Rescission of NDS NWSI 60-703 Vulnerability Management

The following document is rescinded from the NDS:

NDS Number and Title: NWSI 60-703, Vulnerability Management

Effective Date: MAY 12, 2021

Signature Date: APRIL 28, 2021

Certified By: Beckie A. Koonge

Approving Authority: Beckie A. Koonge

Summary: The intent of the NDS 60-703 Vulnerability Management was to prescribe the minimum requirements used in the Vulnerability Management process for the National Oceanic and Atmospheric Administration's (NOAA's) National Weather Service (NWS) systems.

NDS 60-703 was created prior to the issuance of the Department of Commerce (DOC) Office of Cybersecurity and IT Risk Management (OCRM) Vulnerability Management Standard Version 1.0 on 2/14/24.

The level of detail and specificity of DOC OCRM Vulnerability Management Standard makes the NDS 60-703 redundant.

Due to these reasons there is no longer a need for an NWS directive on this standard.
