An Automated Observation from the US Naval Academy measured a wind gust of 37 knots.

A secondary cold front crossed the region late June 21st. A warm and humid airmass ahead of the front combined with the approaching front allowed thunderstorms to develop across the Ohio Valley and move southeast towards the Tidal Potomac River and Maryland Chesapeake Bay. Some of these storms became severe, producing wind gusts in excess of 35 knots.

DISTRICT OF COLUMBIA COUNTY			
NORTHWEST PORTION	06/08/07 20:14 EST	1K	Thunderstorm Wind (EG 50 kt)
NORTHWEST PORTION	06/08/07 20:14 FST	0	38 95N 77 07W ~ 38 95N 77 07W

County Officials reported wires down along Rock Creek Church Road in Northwest Washington DC.

A strong cold front pushed across the Mid Atlantic on the evening of June 8th. Ahead of the front, a warm and unstable airmass allowed scattered showers and thunderstorms to develop over northern Virginia and central Maryland. These storms pushed east over Washington DC during the late evening hours, downing power lines in the northwest portion of the District.

A tree was downed on Route 4 between Routes 258 and 260 in Bristol, MD.

A strong cold front pushed across the Mid Atlantic on the evening of June 8th. Ahead of the front, a warm and unstable airmass allowed scattered showers and thunderstorms to develop over northern and central Maryland during the afternoon and spread southeast into lower southern Maryland during the evening. Some of these storms became severe, producing damaging winds that downed trees and power lines.

	06/21/07 18:45 EST	0	38.9277N, 79.12W	

Grant County Fire and Rescue reported trees down south of Petersburg, WV.

A secondary cold front crossed the region late June 21st. A warm and humid airmass ahead of the front combined with the approaching front allowed thunderstorms to develop across the Ohio Valley and move southeast towards the eastern pan handle of West Virginia. Some of these storms became severe, producing damaging winds.

GRANT COUNTY			
DORCAS	06/27/07 13:50 EST	1K	Thunderstorm Wind (EG 50 kt)
1.0 N PETERSBURG	06/27/07 13:50 EST	0	38.93N, 79.1W ~ 39.0145N, 79.12W

Grant County Officials reported trees and power lines down from Dorcas to just north of Petersburg.

A warm and humid air mass developed as high pressure moved offshore and a cold front approached from the west. Scattered thunderstorms developed across the eastern pan handle of West Virginia during the afternoon of June 27th. Some storms became severe, with damaging winds in Grant County.
