There was a tree down at 5700 Block of Brandywine Road.

High pressure was over the western Atlantic Ocean and southerly flow brought hot and humid conditions into the Mid-Atlantic leading to a unstable atmosphere. A cold front approached the region and showers and thunderstorms occurred in Maryland and were capable of damaging wind gusts.

There was a large tree onto a house in the 1600 Block of Clayton Road. Several other large trees were down along Clayton Road.

An upper level disturbance approached the Mid Atlantic while warm and humid surface conditions led to an unstable atmosphere. Strong winds aloft led to strong thunderstorms that produced large hail and damaging winds.

There were numerous trees down along South Childs Road.

A Bermuda high was to the east and southerly flow across the Mid-Atlantic led to warm and humid conditions. A cold front approached from the Great Lakes and showers and thunderstorms moved across the region leading to large hail and damaging wind gusts.

HAMPSHIRE COUNTY --- 4.1 SW KIRBY [39.13, -78.78]

07/27/14 19:04 EST 0 Thunderstorm Wind (EG 52 kt)

There were large tree branches down and the top halves of several trees snapped along North River Road.

**PENDLETON COUNTY --- 3.4 WSW FRANKLIN [38.62, -79.38]** 

07/27/14 21:20 EST 0 Thunderstorm Wind (EG 52 kt) 07/27/14 21:20 EST 0.25K Source: 911 Call Center

There was a large tree down along Smith Creek Road.

An upper level disturbance approached the Mid Atlantic while warm and humid surface conditions led to an unstable atmosphere. Strong winds aloft led to strong thunderstorms that produced large hail and damaging winds.
