

Regional Climate Summary

May 2020

Weather Forecast Office
Midland/Odessa, TX
Issued August 3, 2021 6:24 AM CT

Severe weather reports this May paled in comparison to the extremely active May 2019. Most severe weather this month occurred on the 15th and 23rd. On the 15th, a stationary thunderstorm over Stanton, TX produced heavy rain and large hail for nearly an hour which caused flash flooding in town. On the 23rd, a tornado touched down north of Gail, TX along the Borden/Garza County line with no damage reported. May precipitation totals were mainly well below normal due to the dryline moving too far east. A few locations including Fort Stockton had a wet month. Temperature departures for the region ranged 1 to 4 degrees above normal. Midland, TX experienced its 5th warmest May on record thanks in part numerous record highs and 8 days at or above 100°F.

Midland Int'l Airport May Statistics:

- Warmest Day: 105°F on the 18th *record high
- Coolest Night: 49°F on the 9th
- Average Temperature: 77.6°F (Normal: 73.6°F)
- Precipitation Total: 0.14" (Normal: 1.74")
- Average Wind Speed: 12.2 mph
- Highest Wind Gust: 58 mph on the 11th
